

RON MAR B. PANGILINAN

QA/QC Civil Engineer | Planning Engineer | Construction Estimator | Quantity Takeoff Specialist

San Leonardo, Nueva Ecija, Philippines 3102 | +63 960 244 6185 | Pangilinan.ronmarb@gmail.com

LinkedIn: linkedin.com/in/engr-ron-mar-pangilinan/ | Portfolio: Engr-Ron-Mar-Pangilinan.github.io

PROFESSIONAL SUMMARY

Registered Civil Engineer and Construction Estimator with approximately 2 years of combined experience in construction, quantity takeoff, cost estimating, structural/civil engineering, and QA/QC. Experienced in interpreting architectural, structural, civil, and MEP drawings and preparing BOQ/BOM, detailed quantity takeoffs, and material and labor cost estimates. Proficient in PlanSwift, Bluebeam Revu, Microsoft Excel, AutoCAD, and Primavera P6, with hands-on experience in construction planning, project coordination, QA/QC, and cost documentation. Experienced in a multinational solar power project, coordinating with owners, consultants, clients, subcontractors, and suppliers across Philippine, U.S., and Chinese project organizations. Seeking a remote Construction Estimator, Quantity Takeoff Specialist, or Quantity Surveyor position supporting AU, US, Middle East, and other international construction projects.

PROFESSIONAL EXPERIENCE

FREELANCE CONSTRUCTION ESTIMATOR

RMP Engineering Services

January 2026 – Present

- Review architectural, structural, civil, and MEP drawings and specifications to identify project scope, quantities, and estimating requirements.
- Perform quantity takeoffs and prepare Bill of Quantity (BOQs) using PlanSwift 11 and Bluebeam Revu 21, with quantities linked to Microsoft Excel.
- Prepare Bills of Materials (BOMs) for construction bidding, including material quantities and specifications, using Excel and AutoCAD 2025, supported by AutoLISP-assisted takeoffs.
- Develop labor and material cost estimates across Siteworks, Civil/Structural, Architectural, Plumbing, Electrical, Roofing, Metal, Wood, and Finishing Works.

Estimating Portfolio Projects:

- Proposed Two-Storey Residence – 178.70 sq.m (1,923 sq.ft.)**
Estimated Construction Cost: USD 96,586.10 | AutoCAD Quantity Takeoff | Rebar Cutting List | BOM/BOQ | Multi-trade Estimate.
- Proposed Two-Storey Residential Building – 97.50 sq.m. (1,049 sq.ft.)**
Estimated Construction Cost: USD 81,712.43 | PlanSwift Quantity Takeoff | BOM/BOQ | Building Works Estimate.
- Proposed Two-Storey Residential Building – 198.04 sq.m. (2,132 sq.ft.)**
Estimated Construction Cost: USD 51,702.03 | PlanSwift Rebar & Formworks Takeoff | Bluebeam Revu Siteworks, Concreting, & Architectural | BOM/BOQ.
- Proposed Two-Storey Residential Building with Basement – 234.36 sq.m. (2,523 sq.ft.)**
Estimated Construction Cost: USD 175,950.53 | AutoCAD Quantity Takeoff | BOM/BOQ Detailed Estimates | Civil/Structural | Architectural | MEP | Roofing.

QUALITY ASSURANCE AND QUALITY CONTROL CIVIL ENGINEER

Hunan Construction Engineering Group Co., Ltd. Philippine Branch

March 2025 – March 2026

- Monitored civil and structural construction activities for compliance with approved drawings, specifications, project schedules, and quality requirements.
- Reviewed construction drawings, quantities, specifications, and technical documents, including design requirements applicable to ACI and ASTM standards.
- Implemented QA/QC procedures in accordance with ISO 9001, including site inspections, material verification, testing, workmanship monitoring, and quality control.
- Prepared and managed Work Inspection Request (WIR), Quality Control Reports (QCRs), Non-Conformance Reports (NCRs), inspection records, quality certifications, and other QA/QC documentation through project closeout.
- Coordinated with MTerra Solar Philippines (Owner), JACOBS (Consultant), China Energy Engineering Corporation (CEEC) (Client), subcontractors, and suppliers to facilitate inspections, resolve technical issues, and maintain project progress.
- Prepared technical and progress documentation, supported progress billing, participated in QA/QC audits and project meetings, and provided technical recommendations to support safe, timely, and quality project execution.

Selected Projects:

- MTerra Solar Phase 1 Photovoltaic Project – 1.4 GW Solar PV**
Scope: Site Clearing & Grading | Site Layout | Screw Pile Installation | Mounting Structures | PV Module Installation.
- 35 kV Overhead Line Tower – Terra Solar Power Plant**
Scope: Earthworks | Site Layout Survey | Tower Substructure/Foundation | Tower Erection.
- Medium Voltage Power Station (MVPS) – Terra Solar Power Plant, Block D**
Scope: Earthworks | Site Layout Survey | Substructure | Superstructure.
- Control Building – Terra Solar Power Plant, Block D**
Scope: Earthworks | Site Layout Survey | Substructure.

QUALITY ASSURANCE AND QUALITY CONTROL CIVIL ENGINEER

Maxipro Development Corporation (MDC)

January 2025 – March 2025

- Reviewed construction drawings, rebar details, Bar Bending Schedules (BBS), rebar cutting lists, BOQ, and BOM to support accurate construction and quantity requirements.
- Monitored tower foundation and erection activities, conducted site inspections, and prepared inspection reports and progress documentation.
- Conducted and documented material inspections and testing in accordance with applicable ACI and ASTM requirements, including concrete compressive strength and rebar tensile and bending tests.
- Managed Request for Inspection (RFI) preparation, submission, and monitoring, including documentation for progress billing, Job Order Requests (JOR), BOQ, and Matrix of Responsibility (MOR).
- Conducted material receiving inspections and supported warehouse management, material scheduling, and inventory organization.
- Coordinated site activities and technical meetings with MTerra Solar Philippines, JACOBS, Energy China, Power China, subcontractors, and liaison personnel, supporting project progress and ISO 9001-based QA/QC requirements.

Selected Projects:

1. **500 kV Transmission Line Grid Interconnection – Terra Solar Project**

Scope: *Earthworks | Site Layout Survey | Tower Substructure/Foundation | Tower Erection.*

ENGINEERING APPRENTICESHIP – PLANNING AND DESIGN SECTION

DEPARTMENT OF PUBLIC WORKS AND HIGHWAYS 2ND DISTRICT N.E.

June 2022 – July 2022

- Reviewed and prepared Architectural, Structural, MEP, and Civil drawings using AutoCAD, and developed Excel-based estimates, BOQ, and Program of Works for road and building projects.
- Prepared and reviewed DUPA-based cost estimates in accordance with DPWH Blue Book, specifications, standards, and applicable project requirements.
- Processed raw survey data using Civil 3D to verify and produce road plan and profile drawings, including alignment, profiles, and cross-sections.

Selected Projects:

1. **Construction of 2 km Road – Brgy. Kalikid Sur, Cabanatuan City, Nueva Ecija**

Estimated Construction Cost: USD 207,351.00 | Road Plan & Profile | Civil 3D | DUPA | BOQ/Program of Works | DPWH Standards.

2. **Construction of Multi-Purpose Building – Brgy. Don Mariano Marcos, Jaen, Nueva Ecija – 84.56 sq.m. (910 sq.ft.)**

Estimated Construction Cost: USD 36,851.59 | Architectural, Structural & MEP Drafting | DUPA/BOQ | Material & Labor Estimate | Program of Works.

3. **Construction of Covered Court Multi-Purpose Building – Palayan City, Nueva Ecija – 540 sq.m. (5,813 sq.ft.)**

Estimated Construction Cost: USD 55,277.38 | Architectural, Structural & MEP Drafting | DUPA/BOQ | Material & Labor Estimate | Program of Works.

LICENSES, CERTIFICATIONS & TRAINING

REGISTERED CIVIL ENGINEER (RCE) — Professional Regulation Commission, Philippines | November 2023 (80.95%)

BLUEBEAM — DIGITAL QUANTITY TAKEOFF & ESTIMATION FOR AEC PROFESSIONAL

XSTRUCTURES Engineering Consultants | August 3 – 5, 2026.

PLANSWIFT — DIGITAL QUANTITY TAKEOFF & ESTIMATION FOR AEC PROFESSIONAL

XSTRUCTURES Engineering Consultants | August 6 – 7, 2026.

MANUAL CONSTRUCTION BUILDING ESTIMATE: WITH AID OF MICROSOFT EXCEL AND AUTOCAD

MSTCONNECT Educational Consultants | August 12 – 16, 2024

QUALITY ASSURANCE & QUALITY CONTROL IN CONSTRUCTION

MSTCONNECT Educational Consultants | July 11, 2025

STRUCTURAL ANALYSIS & DESIGN — 3-STOREY COMMERCIAL BUILDING | NSCP 2015 & STAAD

Philippine Institute of Civil Engineers, Central Luzon State University Student Chapter | May 27, 2023

ACCREDITED SAFETY OFFICER II (SO2) — Department of Labor and Employment | November 2022

EDUCATION

BACHELOR OF SCIENCE IN CIVIL ENGINEERING | MAJOR IN STRUCTURAL ENGINEERING

Central Luzon State University (CLSU) | Science city of Muñoz, Nueva Ecija, Philippines | 2019 – 2023 | GWA: 1.80

TECHNICAL SKILLS

PlanSwift 11 | Bluebeam Revu 21 | Microsoft Excel | AutoCAD 2025 | Civil 3D | STAAD.Pro | Primavera P6 | Microsoft Project | Quantity Takeoff | Cost Estimation | BOQ/BOM | Quantity Surveyor | Construction Planning & Scheduling | Architectural / Structural / MEP Drafting | Bid Support | Project Coordination | QA/QC & Documentation | Cost Control | Remote Collaboration
